

Summer Work: A Level students starting September 2024

We would like all students to produce a 1,000 word (approx) report on any news story/issue that occurs from 24th June-24th August that has relevance and a link to any part of the Year 12 A level specification.

The full specification can be reached using the link on the induction classroom (also below) but the broad topics are:

- 1. Tectonic Processes and Hazards**
- 2. Coastal Landscapes and Change**
- 3. Globalisation**
- 4. Regenerating Places**

Link to specification:

<https://qualifications.pearson.com/en/qualifications/edexcel-a-levels/geography-2016.html>

The report needs to:

1. Outline the nature of the events that are occurring.
2. Identify a range of stakeholders involved, their role and position on the event/issue.
3. The future impacts of the issue/event.
4. An explanation of how this issue links directly to a specific numbered section(s) of the A Level specification.

We will expect the reports to be illustrated with photos, graphs, maps. This is not a copy and paste exercise, it should be clear that you have offered your own points of view and interpretation of the event.

To be handed in either digitally or by hand by the end of the second week of the new term.
